

## David Hyerle's Thinking Maps

This is an introduction to David Hyerle's Thinking Maps which are an excellent tool for developing pupils thinking skills using a very practical, hands-on framework. The full course runs over 2-3 half day sessions where teachers will have the opportunity to learn more about and use each of the thinking maps as well as explore how these could be used across all curriculum areas.

This training can be adapted and modified to suit the individual needs of the school/organisation. It could be delivered as either a one day, half day or series of twilight taster sessions but is most effective as a one day course (or over 2 half day sessions).
