

Working with parents - helping parents to support their children

Do your pupils have to complete homework? Do parents know how to help their children complete the homework without doing it for them? Many parents have good intentions but just don't know how best to help their children with school work, learning and revision. This course is for parents to attend and can be run over 2 sessions or as a long set of sessions, giving hands on tips, strategies, creative ideas all based on sound brain based theory of how we learn.

This training can be adapted and modified to suit the individual needs of the school/organisation. It could be delivered as either a one day, half day or series of twilight taster sessions but is most effective as a one day course (or over 2 half day sessions).
